

EXAMPLE

Hello, my name is Mary Jones and I am currently a junior attending Claflin University. My major is in business with a minor in art. I have volunteered with the student credit union throughout my freshman and sophomore years. Last summer I completed an internship with the Museum of Modern Art and I am seeking an internship in management this summer with your company. I understand that Walmart is one of the leading companies globally with earned revenue of \$485.9 billion in 2019. I have always had an interest in art and I am finding that I have a flair for business. In the future, I am hoping to combine these two very different disciplines and find myself a career that includes them. May I have your business card to discuss possible opportunities with Walmart?
